On 06/28/22, CBS Studios was made aware that New Mexico meets the criteria which triggers the snapback to Part I of the Return-to-Work agreement. The Agreement was recently amended and extended through July 15, 2022. Any New Mexico-based Production will now be considered to be in Part I of the Agreement until further notice. The following are some of the protocols that will be re-instituted, but all New Mexico-based Productions should plan to implement protocols that were followed prior to moving into Part II of the Return-to-Work Agreement.
