

# PARAMOUNT PAUSE AD SPECIFICATIONS

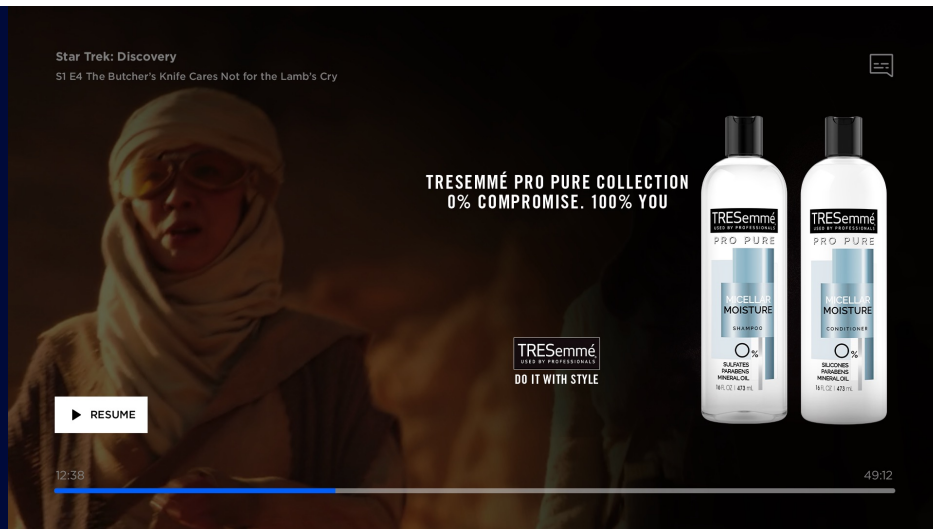

## 1 DEFINITION

The Pause Ad is a non-disruptive format that connects your brand directly with audiences during a user-initiated break in the viewing experience.

### Pause Ad with QR Code:

### Pause Ad without QR Code:

## 2 STYLE GUIDE & TECHNICAL SPECIFICATIONS:

The Pause Ad appears over content on a 1920x1080 standard TV screen a few seconds after a viewer presses pause. It may appear differently depending on the streaming service and device a viewer is watching. The asset is a static PNG contained in a safety area of 1018x674 with a translucent background.

Within the safety area, the Pause Ad is available with or without a QR code. The QR code must be a minimum of 250x250 pixels in order to be easily scanned from a standard couch to TV distance. QR code will be supplied by Paramount.

ITEM	SPECIFICATION

## 3 SUBMISSION INSTRUCTIONS AND DEADLINE INFORMATION

### SUBMISSION INSTRUCTIONS:

Please submit the Photoshop PSD template to your Paramount Account Manager. If you are unable to build the ad to spec our in-house Paramount Brand Studio Team can build the ad using the client's creative direction and assets.

Final development of the ad unit must take place at Paramount as this unit is site served only. QR Code will be supplied by Paramount.

### DEADLINES:

If your client has questions about the specs and/or the PSD template, a representative from Paramount's Brand Studio Team can meet with them to answer any questions.

This call should be set up by the Paramount Sales Account Manager at least 10 days prior to launch. If the submitted creative does not conform to the above specifications, it will not be placed online and may result in a delayed launch date.
